

The first thing people ask
about business insurance is,
“How much does it cost?”

When all is said and done,
what they really want
is value.

TUTTON
INSURANCE SERVICES, INC.

You're the boss, and we know it

*Customer service is everything in this business. There are many excellent insurance companies. There's an agency on every corner. We know you have plenty of resources to choose from. The one thing that sets us apart is the way we treat our customers. When you call, you get fast, efficient personal service - the information you need, when you need it. We give you the time and attention you deserve. To us, **service** isn't a buzzword or an empty slogan. It's the way we do business - period. As you get to know us, we know you will agree.*

Relationships are our business

We have been in the insurance business since 1988 creating relationships with our customers and building relationships with our business partners - the insurance carriers. We develop "partnerships" with our customers through information exchange...developing knowledge of your business and matching it with the most aggressive financially stable insurance company to meet your needs. Our insurance companies constantly deliver for you. Relationships are our business.

We'll help you navigate the paper maze

We think you'll notice the difference right away. Just take a look at our first proposal, Clean, Concise, Understandable. Of course we'll walk you through it - line by line if you like. But we'll leave out the jargon and legalese so you can get a clear

picture of what's covered. As a customer, we'll give you a summary of your current coverages whenever you need it. Just a simple list of vehicles, equipment and property limits. Your carrier will send the usual policy endorsements whenever a change is made, but we think you'll rely on our summary to understand your policy at a glance.

One stop for all your insurance needs

Can you imagine one phone call for all your insurance needs? Through years of experience and growth, we are able to offer coverage for all of your insurance requirements. Our coverages include:

- General Liability
- Commercial Property
- Commercial Auto
- Workers Compensation
- Employment Practices Liability
- Bonds
- Cal/OSHA Compliance
- Group Health Benefits
- 401K Plans
- Section 125 Cafeteria Plans
- LTD / LIFE
- Buy-Sell/Key Person Agreements
- Business Continuation Planning
- Estate Planning

Our specialty knowledge is the key to organizing your business information and delivering the unique insurance coverage your business requires. Our experience will give you confidence that your insurance programs are the best value, custom designed to fit your needs, at the most competitive prices available.

Solid coverage from a carrier you can trust

*We think your insurance should give you the coverage you need at the lowest possible cost. No more, no less. **That's how we define value.** Over the years we've built solid relationships with a wide variety of national and regional carriers. Each is different, with special programs that serve different kinds of business customers.*

All of the insurance companies we partner with have solid financial ratings and share our commitment to customer service and efficient claims administration. Insurance is what we do! We'll be here when you need us and so will the companies we represent.

Remember us at renewal time

In a few short months, you'll want to take another look at your insurance coverages. If you would like to see how we perform, give us a call. We'll do our best to earn your trust and deliver real value for your insurance dollar.

TESTIMONIALS

Pacific Fire Suppression

We have a busy office and we don't have time to double-check all of our requests. We can always depend on Tutton for excellent service. We are treated as if we were their only client.

Colin Jones, President

Pro-Tech Weatherproofing, Inc.

I really appreciate your staff's efforts to guide us through the insurance maze. Your team has been an invaluable ally in our search for fair and equitable coverages and rates.

Fredrick O. Robbins, President

McKinley Equipment

I am so pleased with Tutton's staff. Whenever a problem or anything comes up, I can always count on Tutton for a solution.

Julie DeWees, Manager

Home Loan Mortgage Corp.

Thanks for your help in controlling our business costs. It is gratifying to know that you are looking out for my company's best interests.

Bill Beauchamp, CFO

Hedley Construction and Management, Inc.

In my 30 years of business dealings with insurance firms, Tutton is the only one who looks after my business like my own. I trust them 100% to always take care of me.

George Hedley, President

Pinnacle Group, Inc.

Tutton personnel deserve a customer service award. They are always helpful and I never have to ask a question twice. Their training shows.

Larry Johnson, President
